KnujOn Process Brief

The domains indicated below were reported to KnujOn.com as being advertised in unsolicited email messages or in connection with other illicit Internet activity. Inspection of some domains indicate they are used to advertise and sell illicit pharmaceuticals. These sites frequently offer drugs without prescription or age verification from unlicensed and unauthorized sources. Attempts to contact the registrant of record through the WHOIS failed for the reasons cited in each case. At the end of the 45-day WDPRS lifecycle the domains in question were still online with the same content and the WHOIS was not updated. In the interest of providing context and background, an example of the illicit content is provided.

Case 1: Domains concerning the following domains registered to: "mrjames.gavv@gmail.com"

Case 2: Domains with email contacts using “whoisservices.cn” in the admin email

While the WHOIS contact email addresses in these cases were updated, but the fundamental problem is that they all use the domain “whoisservices.cn” which is apparently not in the DNS and hence cannot receive email. Messages sent to any email at whoisservices.cn result in the following:

```
I'm afraid I wasn't able to deliver your message to the following addresses.
This is a permanent error; I've given up. Sorry it didn't work out.

<hjubhqihnz@whoisservices.cn>:
Sorry, I couldn't find any host by that name. (#4.1.2)
I'm not going to try again; this message has been in the queue too long.

<ovuoYWjsza@whoisservices.cn>:
